						\$
I certify the employee costs reported above accurately reflect the personnel expenditures for the development of the application.				Fiscal Year Total:		0 \$

IT Software Development
Manager

* Calculated by dividing the annual salary on June 30th by 26 pay periods divided by 10 (days per period) divided by 7.5 hours

Example: As of June 30th, the salary \$75,000. $((75,000/26)/10)/7.5 = 38.46$.

** Include only actual hours charged to the project. Do not include indirect, fringe benefit, leave, or sick time costs
